OFFICE POLICY

Although our office participates in many insurance plans, treatment is not rendered with the understanding that all fees will be covered in full, nor do we allow insurance companies to dictate treatment.

Our office discounts our fees in order to participate with these companies so that our valued patients can continue to receive excellent dental care.

All fees remain the ultimate responsibility of the patient whether or not paid by insurance. On the date of service you will be held responsible for deductibles, estimated co-pays and excluded expenses.

Please note that fees at the time of service are only an estimate and additional fees may be required once the explanation of benefits is received from your insurance carrier.

In order for our office to keep our fees reasonable we will no longer be doing monthly billing, unless a financial arrangement has been previously arranged.

I, the undersigned, certify that I have read and understand the above office policy. My questions, if any have been answered satisfactorily and I assume full financial responsibility for all charges whether or not paid by my insurance.
